ASK CHANGES DISTRIBUTION RELIEF COSTS

Mayors in Conference Ask Dominion to Bear Full Responsibility

WINNIPEG, July 7.—Complete change in the distribution of relief costs between the Federal, provincial and municipal governments is being demanded by the mayors of Canadian mayors here. A resolution calls for the assumption by the Dominion of responsibility for the cost of single unemployed and \$5 per week of relief expenses now paid by the provincial and municipal governments, 28 and 10 per cent respectively, with the married wives. With the married wives.

It was felt that the problem of relief was not one and that the Dominion government should assume the major part. Mr. Knott, of Edmonton, and Mayor A. Davison of Calgary, were of the opinion that the financial burden should be borne by the Federal government, yet they did not think that the provinces would be made in this direction.

WEIGHED DOWN

The general feeling existing at the conference was that municipalities were weighed down by relief expenditure load and could not carry the burden alone. In five months the figures were as follows:

- (1) That the Dominion government take steps to reduce the bank interest rates.
- (2) That the provincial governments appoint a commission to investigate relief costs in the provinces and municipalities;
- (3) that municipalities introduce a 40-hour week; and that the relief be spread as much as possible among unemployed;
- (4) that a uniform scale of relief be adopted.

Present at the conference are: Alderman J. McLean, Vancouver; Mayor Daniel Knott, Edmonton; Mayor Andrew Davison, Calgary; Mayor J. E. Allan, St. Albert; Mayor G. H. Smith, Fort Macleod; Mayor David Campbell, St. Boniface; Mayor W. J. Garry; Mayor D. J. Allan, East Kildonan; Mayor Ed Partridge, West Kildonan; Mayor A. S. James; Reeve A. W. Pritchard, Burrows; C.C. Mayor E. F. Shannon, Brandon.

C.N. Telegraphs Chief Is Visitor

W. G. Barber, general manager Canadian National Railways system, accompanied by J. G. Davis, general superintendent of the western region, whose headquarters are at Vancouver, left the city about 6:50 o'clock this morning on a periodical inspection trip, also for the summer vacation. Mr. Barber, Mr. Rooney, superintendent on several main lines, and Mr. G. L. Scott, of facilities on the Alberta district.

As the purpose of the journey was not disclosed, it is assumed nothing was made by Mr. Barber and Mr. Davis except to order round-robin, neither gentleman had any remarks of special significance to make. They are visiting the larger cities in Western Canada in connection with their inspection of railway affairs; however, they expressed desire to light over the most promising crop country in the west, particularly west of Winnipeg, and the effect such an anticipated excellent harvest would have on the local business conditions, in addition to temporarily relieving the serious unemployment situation to a certain extent.

Mr. Barber and Mr. Davies are leaving Edmonton tonight for Vancouver.

Chick Is Freak At Farm In Duvernay

DUVERNAY, Alta.—July 7.—Duvernay seems to be among the unusual, when a chicken was hatched with two heads, two tails, four legs and two beaks. This freak chick was hatched on the farm of Mr. and Mrs. C. F. Callahan, in the general store of C. F. Callahan, in Duvernay. It is a belief it is

MANHUNT FOR POLICE KILLER SHIFTS SCENE

Posse Now Searching Nut Mountain for Corp's Slayer

SASKATOON, July 7.—The search for the killers of Corporal Leonard V. Ralls had shifted today from the hills to the flats, a few miles west, to heavy-timbered Nut Mountain. Hiding in the bush are 15 men, some of them armed, whom police held responsible for the early morning murder Tuesday of the Royal Canadian Mounted Policeman.

A Mountie who succeeded in getting away from his killer yesterday, the posse of police and men packed up a fresh trail last night and returned to the Nut mountain.

The switch in operations was made after a report that Mrs. Freda Frances, a farmer's wife who lives half a mile south of the mountain, had given information to men Tuesday evening, was received. She had not heard at that time of Ralls' killing, but had notified police as soon as he returned home and learned of the crime's victim.

Police were given good descriptions of the three men by Mrs. Frances and the two other women who were present. All agreed to be anonymous.

Ralls was murdered when he attempted to rob a safe in a garage in which he thought bandits wanted to rob several Saskatchewan miners.

NEW YORK, July 7.—Evidence indicating that Ivar Kreuger, recently in Kruger & Toll American can certificates.

Mr. Kreuger, a famous man who has given millions worth of the mountain, has given his services to the men Tuesday evening, was received.

He had not heard at that time of Ralls' killing, but had notified police as soon as he returned home and learned of the crime's victim.

WORSE THAN WAR

Independence Day cost the United States the lives of 240 citizens. How many were injured is not stated in the dispatches, and will probably never be known.

It was a day to drop in fatalities from the record of last year, when the demonstrations throughout the republic resulted in the killing of nearly 500 people.

The comparative bloodlessness of the holiday this year is explained as due in part to the demonstration, which did not occur in the United States, and in part to the fact that most parts of the country have a weather over a large area, which kept people away from the beaches and off the highways.

The inference from this is that had the times and the weather been normal there would have been many more causalities. Not much hope seems to be entertained by United States commentators that the campaign for a "safer and saner" celebration is producing the desired results.

It would be cheaper for our neighbors to combine their local Independence Day celebrations into one and fight the battle of Bunker Hill over again every 4th of July. In that historic engagement they lost only 43 men, killed and wounded.

THE MIRACLE HAPPENED?

French newspapers accuse Italy of trying to "torpedo" the Lusanne conference; by bringing in an eleventh hour proposal to wipe out all war debts as between European countries and trust to luck as to what the United States might do in the way of cutting down their debts at Washington.

The French press can hardly be supposed to take a strictly dispassionate view of any proposals that emanate from Rome. But in this case there is enough in the circumstances to give rise to suspicion, and may be considered as a coincidence.

If Italy actually expected or hoped that anything would come of the proposal it is difficult to understand why it was delayed until the conference was on the eve of adjournment, and not only into the night when it was evident that France had agreed to the peace.

The Italian Progressive party was launched here. East Las Vegas, New Mexico—The Johnson-Flynn fight takes place tomorrow.

millions of dollars in a gas field where there was no market for it.

The Dominion Government, not cracked broken nor unscrupulous persons, is the party primarily responsible for a situation arising in which there were only two alternatives: to allow a valuable public resource to be exhausted for a trifling fraction of its value, or to shut down the gas plant and force the holders of "old" stock to wait and undeserved loss.

In common fairness the Dominion Government ought to stand over the money it has collected in royalties from Turner Valley, and let the oil wells go to waste rather than to be distributed among the oil wells with the Government's knowledge, consent and assistance—they were induced to buy gas stock in the suggestion that they were getting oil stock.

From the File of the Edmonton Bulletin

The Canada Western Railway Company deposited half a million dollars as security for the commencement of that section of the Canadian Pacific Railway west of the C.P.R. Starting from Victoria, on Vancouver Island, it crosses to the main land by a bridge, and passes through central British Columbia to the Jasper Pass. It is expected to connect in the Northwest with the Manitoba Northern system of the C.P.R.

The company is made up of Chinese capitalists and is to receive a subsidy of \$100,000 a mile, to be paid by the British Columbia government, from which the charter is derived. If construction is not commenced at once the charter will be forfeited.

There is room in your make-up that is promising, and a great deal that is likable. You sport things, and are fond of fun. You are not afraid of a show, and do not need to be told to look you're eye on the ball. You are not afraid of most hazards, and are willing to "take on" the best of them in competition. It is difficult to say just why you seem to outlast the rest of us, or why your handiness is so tested of you.

You are a disappointment to yourself and others at the finish. You are good at bold and vigorous strokes whether mental or physical, and you are not afraid of the sterner challenges in life. You are often a jester, and rather than let your efforts appear to be those of a great skill and technique are needed carelessness creeps in.

And all the games of life you show spartanism, and a gracious losing. You are not a grandiose, but a modest, and always a good winner. You enjoy your work and enjoy your play.

East Las Vegas, New Mexico—The Johnson-Flynn fight takes place tomorrow.

TEN YEARS AGO

Dublin, Ireland—The siege of the strongholds of the independent forces was virtually ended with the surrender of one of the last remaining fortifications held by the rebels behind the barricades and the capture of one of the principal leaders, Col. Cathal Brugha, former Minister of Defence, but the success of the National cause has been purchased at the cost of blinding buildings and terrible destruction.

London, England—Sir Edward Grey, Foreign Secretary, says he has no information as to the whereabouts of Enrico De Valera.

London, England—A question by Lord Sydenham in the House of Lords regarding the existence of organizations working to subvert the peace of the country was answered by Lord Charnwood, who said that the organization was not of British institution. While admitting that during the four years since the signing of the Armistice there had been periods of anxiety, he was now able to ridicule Lord Sydenham's fears of revolutionary uprisings.

London, England—An experienced fisherman, Mr. John Williams, who has been navigating airships about the northland wilderness for years, took off on Friday last from Bear Lake for P.E.I. in a comparatively short flight of a couple of hundred miles, only to meet death when all his two companions were lost in a high side wind.

Power Project Work Stops—800 Idle

ABITIBI HAS MUCH TROUBLE GETTING CASH

Possibility of Ontario Gov-
ernment Taking Over
\$23,000,000

TORONTO, July 7.—Eight mem-
bers of the Ontario legislature
met today on the \$23,000,000
Abitibi paper mill construction
site in northern Ontario.

The inspection was carried out
by the Dominion Construction
company for Power Services, subsidiary
of Abitibi Paper Co., which had
order to cease work was voted north
from here yesterday. The same day
as the inspection, a lengthy meeting
of the government considered the
over 1,000 men from Ontario
Power Services, a step initiated by
Premier Frank J. Diefenbaker, who
said what it became known that Power
Services lacked the funds necessary to
keep the plant running.

In confirming news of the shut-
down, Premier Diefenbaker said Abitibi
was having difficulty in getting the
money to carry on its subsidiary's pro-
jects, and that he had been advised
upon the government's decision
to take over the scheme, he said
that he refused to discuss the possible
outcomes.

WEDS IN SPITE; BEAUTY IN COURT

REVERE, Mass., July 7.—The
month-old marriage of Ethel Cus-
hing and Edward Friedman, wealthy
young man, has gone on the rocks.

The dark-haired young beauty
had married the Boston millionaire
in New Haven, Conn., to snub her mar-
riage to Edward Freedman, ship-
ping magnate, worth \$20,000,000 fortune.

When and if the judge grants
Ethel a divorce, she intends to
marry Louis Dublin, Boston whale
druggist, who was born of Irish
parents. Ethel and Ethel Freed-
man's wedding was sudden because
Ethel soon found it was herself
who had "spited."

AMUSEMENTS

STRAND

Many different stories are there
of saying "No!"

Kay Francis made some interesting
statements in her line during
discussion in "Street of Women," when
her present starring vehicle for
Warner Brothers, now at the Strand
theater.

John Young played opposite her
and the two stars were asked if they
had any objection to say "No" six times
to different requests from Young.

"And the girls in the other," said
Young, "went into the scene. 'Any two
are alike, the whole thing will go
fak.'

DREAMLAND

The dramatic story of an afflative
girl who falls in love with a man
she has never seen before and falls
in love with a modern young
man, Maril Davis, to the delight of
the critics, has been well received

**Next Meeting of
National Council
Held in Calgary**

**Winnifred Kydd Again
President—To Visit
West**

Nell M. Winnifred Kydd, of Montreal, was the unanimous choice as president for the second term of office at the annual general meeting of the National Council of Women convened in Ottawa recently, with delegates present from various centres throughout Canada.

The new president took up the thirty-ninth annual meeting which was to have been held in Calgary.

LIST OF OFFICERS

Associated with Miss Kydd will be the following officers: Honorary corresponding secretary, Mrs. H. H. Bowden; treasurer, Mrs. S. D. Gignan, Toronto; convenor of censor and printed matter, Mrs. E. C. MacLennan, Vancouver; convenor of committee citizenship, Mrs. A. J. Holman, convenor of women's economic committee, Miss Ethel S. Ambrose, Hamilton; convenor of women's financial committee, Mrs. James McErlane, Winnipeg; convenor of national recreation, Mrs. N. W. Scott, Victoria; convenor of women's trades and professions for work, Mrs. E. M. G. Weston, Toronto; convenor of economics, Mrs. E. Hill, of Edmonton.

Other members of the executive were ratified as follows: Alberta, Mrs. H. J. Riley, Calgary; British Columbia, Mrs. G. MacLellan, Vancouver; New Brunswick, Mrs. John Stevenson, Fredericton; Newfoundland, Mrs. G. Ferguson, Westville; Ontario, Mrs. J. Wesley Bundy, Toronto; Quebec, Mrs. J. L. Gray, Quebec; Regina, Mrs. J. W. T. Cook.

An invitation was accepted from the Canadian National Exhibition to hold an exhibit there this year. Mrs. J. Wesley Bundy was chosen to represent the country.

It was unanimously decided that the Canadian delegation to the office of the National Council of Women, situated in Ottawa, be made available to the Canadian delegation to the imperial Economic Conference. This would enable the Canadian delegation to other countries to gain an insight into what Canadian women do in their community.

Her Excellency the Countess of Bessborough sent a telegram of greetings and best wishes for the success of the conference.

Another item of interest to Canadian women was the decision reached by Miss Kydd to have all the officials from coast to coast. This trip will be made in the autumn, and it is hoped that each delegation to the Disarmament Conference at which she was one of the Canadian delegation.

The invitation was accepted, or rather requested, by the Canadian delegation to hold its meeting in that city and the Spring executive meeting in Ottawa.

Mrs. Thorburn, speaking on behalf of the National Council to Miss Kydd, said: "We are looking forward to Geneva appointment, joy in her return and pride in her achievement. Mrs. H. J. Riley, of Calgary, was chosen to represent the Council at the deadly serious Disarmament Conference."

Lester, who organized one of the honorary committees.

CARAMEL SAUCE

Caramel sauce is rich and delicious, but it is a waste of time to can it because it will not keep.

One cup light brown sugar, 1-3 cups water, 1-3 cups cream, 1-3 cup heavy cream, 1-3 cup cold water, 1-3 cup cold oil.

Cook sugar and water until sugar has dissolved, add cream, boil until mixture begins to boil and then remove from heat.

Let cool, add cold water, stir until mixture begins to thicken, then add cold oil.

When mixture begins to thicken, add cold oil.

WIFE NEEDS HER HEAD EXAMINED

DEAR MISS DIX:—We have been happily married for six years. With off-femininity and have a wonderful 2-year-old boy. All my friends of both sexes say I am a good wife and a good friend. But my wife has become so jealous of me that I am afraid she will leave me if I do not get her head examined. She says she is not a bit jealous because of her unattractiveness to other men. But she says that will make everyone think she is a bad wife. She says she is not jealous because of her husband's looks, but she drops her and never sees me again. But she says that that will make everyone think she is a bad wife. She says she is not jealous because of her husband's looks, but she drops her and never sees me again. But she says that that will make everyone think she is a bad wife.

DOROTHY DIX.—She gets the attention of an animal, but there are a lot of women like her. Crass, jealous without any reason whatever, and the trouble is that you can't reason with insanity.

Your wife sees what she wants to see or what she gets a sadistic pleasure out of torturing herself by thinking she sees. She puts her own interpretation on everything you do. Even if you move away in some place where you will never hear or see the woman again, she will still be jealous. You can't reason with her, but you can make her see how ridiculous her position is by telling her that you are cherishing a hidden secret passion for her.

As far as you can deal with the subject at all the best thing will be simply to laugh at it and tell her not to make a fool of herself. If you can make her see how ridiculous her position is she will abandon it. If you can't, then you must be patient. It is not as jealous as she pretends to be and it is only a bid for you to be alone. High pressure love-making.

But I often wonder what these jealous women do not realize the power of suggestion and the results of the damage they do to their husbands' minds that he is a better man than his breaker. I live in Canada hundred miles from the ocean. In the summer he was getting sulky and indifferent and I used to feel bad. He was waked up from this comfortable domestic trance by his wife's jealousy of some young girl.

"If my wife thinks I am that good-looking, I feel inferior, perhaps I am," says the satisfied husband, and forthwith he begins to act like a lamb and if his wife is going to rag the life out of him he might as well be jealous of other women. He might as well have the fun of justifying it.

Also the jealous woman's husband reflects that one might well wish him for a better man. A lamb and if his wife is going to rag the life out of him he might as well be jealous of other women. He might as well have the fun of justifying it.

DOROTHY DIX.—Dear Miss Dix, my wife thinks her husband perfect that one might well wish him for a better man. A lamb and if his wife is going to rag the life out of him he might as well be jealous of other women. He might as well have the fun of justifying it.

DEAR MISS DIX:—I went to a boy's apartment last night to buy a book for him. I am a member of girls who are careful of their reputations, and if you do it you will be ashamed of any one knowing. What do you think of this?

KATE D.—Answer:

All wrong my dear. Going to a boy's apartment is a definite do-nothing for girls who are careful of their reputations, and if you do it you will be ashamed of any one knowing. What do you think of this?

Mrs. S.—Answer:

Hotes in Montreal are uniformly hospitable and comfortable only one or two of them are in the same class as the hotel in your agency in Montreal for a list of hotels, no one of which can be mentioned.

Choice of gifts depends largely upon the age of the child. If you are likely to give one-to-group gift with a "round-robin" attached or circular card written distinctly from centre to rim so that no one name has precedence, leather travelling-clocks, steamer rugs, glasses, etc. For an infant, gift may be recommended a collapsible sewing case, or a Canadian book.

It isn't enough for a girl to be good. She has to look good.

Packard

This distinguished name in America is a variation of the French name Packard, undoubtedly first assumed as a family name by an American emigrant who had undergone many changes and still varies in different countries. We find it in England, France, Ireland and Scotland in most instances.

The name of Packard was first introduced into America by George Packard, who arrived on the good ship Delight, bringing with him wife and son in 1638. He settled first at New Haven from whence he moved to New Haven, now Hartford, Connecticut.

The name of Packard is an eminent name in many sections of the country, particularly in the Middle Western states.

Your Baby and Mine

By MYRTLE MAYER ELDRIDGE

TOYS FOR ACTIVE CHILDREN

BY MARY E. BRIGGS

The early years and her young and competitive nature offer material for several problems. The baby ought to be let loose, but she must not constantly depend upon the presence of the mother to be given more or less liberty as she grows.

Playpen grows monotonous. The baby needs space and liberty and a place where unknown dangers which surround her attention fastened on the baby.

PLAYPEN — Myrtie M. Eldred

All of these are found to be found in many homes. At the eve of the mother, she is apt to turn to that bemoaning eye for aid and comfort in her surroundings. In this end this builds up a supreme dependence on the mother which makes it impossible for the baby to be happy unless right with the mother.

The mother who gently scolds herself knows the moment she is the victim of just such a situation.

Playpens do serve an extremely useful purpose, however, in holding the child from being harmed, or from getting into mischief while the maternal mind is occupied with other things. But active children get tired of being cooped up in a playpen and should be given room to move.

KEEPING BABY AMUSED

Mrs. G. M. thinks many young mothers would appreciate a discussion on the problem of keeping a small child, who is, by very nature of her "oneness," somewhat of a problem to manage wisely.

"My baby is too old," she cries, "and is a happy, healthy baby. Our home is small and there is not much room for the baby to move about as we own. The biggest problem is how she can be supplied with what will leave me free to do my work. Much as I love to play with her, I know that the time spent on housework in general have to be considered. Then, too, I know that I have to go to work in a few months. An article of yours not long ago you spoke of a 'few, well-chosen toys' and I'd like to know what you mean by that."

Her baby gets too confined for her sturdy little legs and you can't turn her out, without anyone to watch her in an enclosed yard. Any ideas who will be glad for some ideas on how to meet that problem?

WHERE TO PLAY

When baby gets too old to be comfortable and happy in a playpen, it is time to consider another corner of either the living room or bedroom, manufacture some temporary furniture, such as a chair, the baby's small table, chair, and toys inside of that. My husband and I have made a large number of these, which may be obtained by sending a self-addressed envelope to the Imperial Oil Company, for him. Make your own choices of the toys suitable for a 16 month old.

If the front porch can be enclosed that is a safe place for baby to play. If the front porch is not safe, then no proprieity for picking up undesirable objects, then she ought to be permitted to explore the world outside. The baby who has freedom to run about is likely to object to being cooped up in a playpen and dropping it for a new attraction.

There need not be so many toys as to be a hindrance. But there should be sufficient.

REDEER SCHOOL HAS BIG PICNIC

Exclusive to Edmonton Bulletin

RED DEER, Alta., July 7.—Pupils

of Red Deer School, accompanied by parents and friends, held their annual picnic at Sylvan Lake.

The party was allowed the use of the lake for swimming and boating.

A large list of races for both children and adults were run off.

The main feature was a tug-of-war against the school of Sylvan Lake.

Other games were all played. A softball game was up the sports program, after a busy afternoon.

Compare the New Marvelube, grade for grade, with any other oil. Compare its clear, clean, bright golden color with the gloomy color of other oils. Its clearness proves its purity. Ordinary oils contain certain compounds which cause them to break down in use—which deposit carbon and gum in the motor. Not so with the New Marvelube. It is all oil. The New Marvelube is all lubrication. It is fine enough for the most delicate machinery, yet it has a heat and wear-resisting body that has never been surpassed. It is made by an exclusive process. Its superiority to the highest priced competitive oils has been definitely proved. Yet it sells at the regular price.

Whether you change all every 50 miles or every 2,500 miles, you will get better results with the New Marvelube. Most Automobile manufacturers recommend changing oil every 50 miles or more, depending on use and atmospheric road grit and other injurious substances.

An indication of the class of some of our Senior Amateur Base ball players is shown in the case of Harry Thompson, big right-handed mound ace of the Royal Canadians, who received an offer from a professional club in Minneapolis. Big Harry, however, turned down some fine amateur ball in Brandon, Manitoba, before turning pro, and on his good performance a new opportunity was offered this year in Minnesota.

The result? The Scout

has not seen the last of Harry.

Thompson worth in these parts, but he watched him appear in Manitoba and in the other days. Harry maintains that there are many more opportunities of making the grade if they were only given the opportunity, right for them, and right for their right, for they have many fine ball players in the League this year.

Thompson does not intend to accept the offer, however, as he intends to stay on here and play amateur ball with the Royal Canadians.

The chance for which they have sought an uphill fight all season is offered King and his team. They have an opportunity to climb into a Senior Amateur league playoff position, and the Royal Canadians are one of the best teams in the league.

**QUIET SESSION
PUTS WINNIPEG
BACK FRACTION**

WINNIPEG, July 7.—The wheat market here had lost most of its attraction yesterday during a quiet session, but did manage to end a little higher. For the greater part of the day, however, the market was dead, with no real firm stamping its mark on the Chicago market in the last hour.

The weather was weak in the southwest states, winter wheat areas brought some liquidation in the United States, and the general influence here. A spell of rainy weather was broken, a ray of sunny weather was broken and harvesting was well under way.

All futures were 4¢ down at the July close, at 32¢ cents. October at 30¢ 15 cents. December at 29¢ 15 cents. January at 29¢ 15 cents. February at 29¢ 15 cents. March at 29¢ 15 cents. April at 29¢ 15 cents. May at 29¢ 15 cents. June at 29¢ 15 cents.

Unconfirmed reports that the United States board would liquidate its hold on wheat stocks, caused a slight heightening of interest in the session. The English market opened, showing a higher response to the one-cent increase in the price of wheat in Western Canada, following a 1¢ per cent rise in the dollar.

Dulls a small export business in Canadian wheat could be started.

Demand for cash wheat was confined to No. 1 hard and No. 3 northern grades, which were 4¢ 15 cents higher than the previous closing differences. Spreads on other grades were unchanged.

Sales of coarse grains were confined to a small export business in barley. Cash prices were 1¢ 15 cents higher. Influenza still had a depressing effect.
